PROGRAM

----HHH ---

What is the Comprehensive Enforcement Program?

CEP is a cooperative effort between the Judicial, Executive and Legislative branches of government to provide an alternative way of collecting fees, fines, and restitution.

Legislation enacted in 1995 created CEP and provides for CEP hearing officers to preside over hearings regarding failure to pay courtordered financial penalties and restitution.

Presently, a total of six (6) hearing officers are assigned calendars in each Superior Court statewide.

ENFORCEMENT PROGRAM

COMPREHENSIVE

Ability to Pay Calculator Objective:

- Strengthen evidence-based principles in our ability to pay assessments and determinations.
- Ensure fairness throughout the hearing process.
- Ensure interventions do not punish or perpetuate undue hardship.
- Eliminate subjective payment plan determinations.
- Aid in establishing reasonable payment schedules.
- Provide alternatives for those with limited ability to pay.

 New monthly payment plan and start date

- Total number of payments remaining to satisfy the financial obligation
- ✓ Financial summary
- ✓ Historical record of payment plan calculation

KEY COMPONENTS (Continue)

Alternatives

For those individuals with a limited ability to pay, the CEP hearing officers may:

- ✓ make referrals to educational and employment readiness resources;
- Pause plan payment start dates and relist matters for reassessment of a client's financial circumstance;
- ✓ reduce or vacate non-mandatory penalties (ex. supervision fees); and
- ✓ apply reformative credit

Note: A hearing officer's findings and recommendations must be reviewed and signed by a Superior Court Judge before it becomes an official order of the court.

● Income vs Poverty / Income vs Expense ○ Total Monthly Income / Balance Owned ○ Demographics

- Data is stored in a database that allows users to examine previously generated results to aid in identifying and prioritizing areas of individualized needs (e.g., education, employment, housing, etc.).
- The data is also used to gather a deeper understanding of the barriers or limitations that may impact their ability to pay.

The following report examines the results of the Ability to Pay Calculator (ATPC) as generated from the Ability to Pay Dashboard

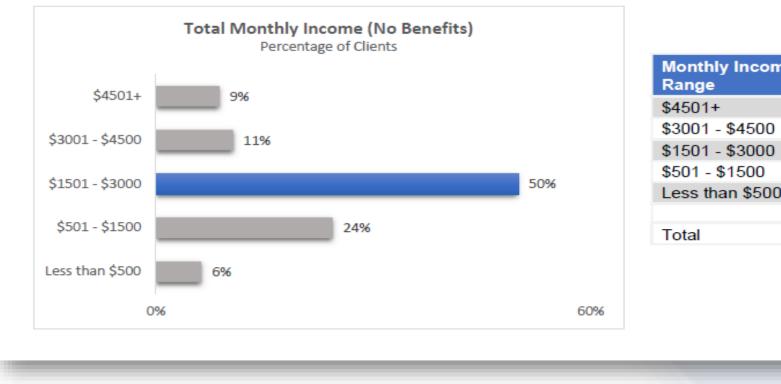

The first diagram below contains the percentage of total clients who reported income (only), both income and benefits, or no income:

Of the 59% reporting income only, which represents 160 total clients, 50% reported a monthly income between \$1500 to \$3000.

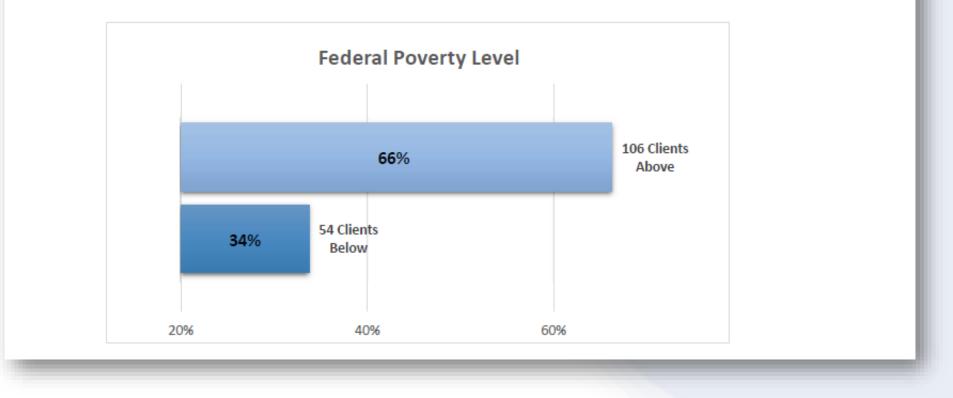

The diagram below details distribution of clients across each monthly income range:

| Monthly Income Range | Total # of Clients |
|-------------------------|-----------------------|
| \$4501+ | 14 |
| \$3001 - \$4500 | 17 |
| \$1501 - \$3000 | 80 |
| \$501 - \$1500 | 39 |
| Less than \$500 | 10 |
| Total | 160 |
| | |
| | |

The figure below demonstrates that out of 160 total clients with a household size between one (1) and six (6) (averaging at two individuals), 66% reported income above the poverty threshold. Only 34% reported income below the poverty level.

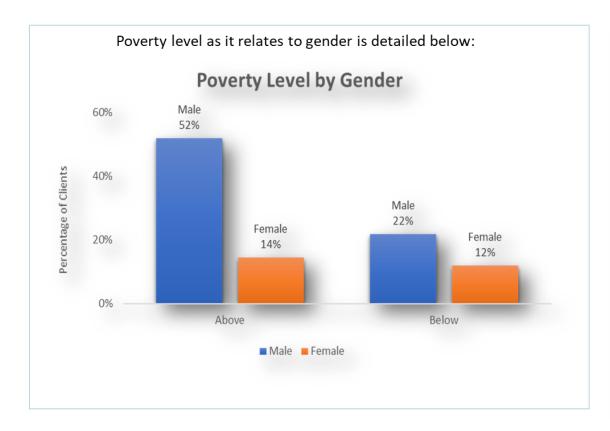

While the median household income was \$2,000, it varied by race and ethnicity, as detailed below:

| Race/Ethnicity | Total Clients w/ Income (No Benefits) | Median Household Income |
|-----------------------|--|-------------------------------|
| All Races/Ethnicities | 160 | \$2,000 |
| White Non-Hispanic | 78 | \$2,142 |
| Black Non-Hispanic | 60 | \$1,710 |
| Hispanic | 15 | \$2,400 |
| White Hispanic | 6 | \$2,500 |
| Other Non-Hispanic | 1 | \$2,000 |

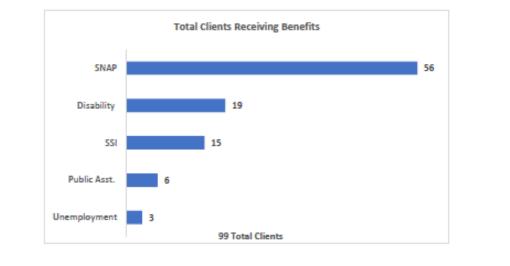

The median age was 39 years. The percentage of clients by age and gender are parsed out below:

| Age | Male | Female |
|----------------|------|--------|
| 20 to 24 | 4% | 2% |
| 25 to 34 years | 29% | 8% |
| 35 to 44 years | 19% | 9% |
| 45 to 54 | 17% | 6% |
| 55+ | 5% | 1% |
| | | |
| Total | 74% | 26% |

A total of 99 clients reported that they received either SNAP, disability, SSI, public assistance, or unemployment benefits as demonstrated in the figure below:
